## NEW! Build Your Own Season!

Our season subscription process has been updated to make things easier for you. Now, simply choose four or more individual events, and get everything for the discounted season subscription price. Mix and match and see the shows you want to see, when you want to see them.

## How Does It Work?

Simply choose four or more events to make a season. All season tickets are \$18 Adult/\$9 Student.

Any four events count, so you can choose different dates of the same production, or different productions.

Need to make a change later? No problem, exchanges are always free.

## Examples

Example 1: A couple wants to see four different productions together. Each set of four productions counts as a season, so that would be a total of two season subscriptions of four tickets each.

Example 2: The family of a theatre/dance student wants to see a single production four times. Each set of four dates counts as a season subscription.

Example 3: A couple wants to see two productions together. This is four tickets, but only two events, so is *not* a season subscription.

Example 4: A single person wants to see every production once. This would be eleven events, and would count as a subscription.
